

Product Certified

Formaldehyde Emission Classifications

The Engineered Wood Products Association of Australasia Ltd. certifies that

Carter Holt Harvey - Marsden Pt

Private Bag 9031, WHANGAREI

Mill Number 918

manufactures the following products which continue to satisfy the EWPA Quality Control Policy and Specific Rules for Certification with regard to formaldehyde emission. This is based on a rolling three monthly average of NATA accredited laboratory test results complying with the limits specified in the relevant standard^{}.*

Product	Standard Certified Against	Bond Type	Emission
I Beam	Special Products	A Bond	Super E0
LVL	AS/NZS 4357 Structural LVL	A Bond	Super E0

Simon Dorries
EWPA General Manager
Date of Issue : 19-Mar-13

*Emission Limits : E0 <= 0.5mg/L, E1 <= 1mg/L, E2 <= 2mg / L. Super E0 must have an average emission amount <= 0.3 mg/L with a maximum amount <= 0.4 mg/L. For all standards other than AS/NZS 2269, the Super E0 classification is an industry limit. When Super E0 is claimed, the product also complies with the E0 classification from the relevant standard. This certificate is valid on the date of issue. This certificate must not be reproduced except in full. To view the current list of EWPA certifications held by this organisation, please visit the EWPA's on-line register at <http://www.ewp.asn.au/register>.
